

PUBLISHED BY AUTHORITY

SIMLA, SATURDAY, MARCH 23, 1957

Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 23rd March 1957

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

7th March 1957

- 59835. Shri Ram Institute For Industrial Research. An improved process for the production of shrink and crease proof finishes of cellulose textiles.
- 59836. Shri Ram Institute for Industrial Research. Improvements in or relating to the resin treatment of textiles.
- 59837. Shri Ram Institute For Industrial Research. Improvements in or relating to shrink-proofing of wool and hair materials with oxidising agents by the application of fluid bed technique.
- 59838. Union Carbide and Carbon Corporation. Decarburizing high-carbon ferrochromium. (23rd November 1956).
- 59839. Union Carbide and Carbon Corporation. Gas shielded arc welding. (26th November 1956).
- 59840. L. B. Gaburri. Process for prefabricating supporting structures for buildings, implements for performing said process and structures thereby obtained.
- 59841. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Polyenic dienol ethers and method of preparing same. [Divisional date 10th August 1956.]
- 59842. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Polyenic dihydroxy compounds and method of preparing same. [Divisional date 10th August 1956.]
- 59843. Maschinenfabrik Augsburg-Nurnberg A.G. Improvements in and relating to a shutter weir. [Addition to No. 52628.]
- 59844. Maschinenfabrik Augsburg-Nurnberg A.G. Improvements in overload protection couplings.
- 59845. Meboe Limited Improvements in or relating to hydraulic buffers and drawgear.

8th March 1957

- 59846. S. P. Joshi. Improvements in or relating to securing means like hooks, clips etc., used to secure keys, tags, loose leaves and like items.
- 59847. K. Ramanian (Mrs. S. V. Ramaniah). Improvements in and relating to furniture and floor polishes.
- 59848. Tecalemit Limited. Double-acting fluid injector. (9th March 1956).
- 59849. Farbenfabriken Bayer Aktiengesellschaft. Process for the manufacture of pure 4, 4'-dihydroxydiphenylalkanes. (5th December 1956).
- 59850. Technicolor Corporation. Toothed conveyor for cinematographic film and the like.

59851. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to electric discharge tubes provided with a pentode system, more particularly power amplifier tubes.

59852. Koninklijke Nederlandsche Gist- & Spiritusfabriek N.V. Pimaricin and process of producing same.
9th March 1957

59853. Council of Scientific and Industrial Research. Improvements in or relating to the preparation of costus root oil and products thereof.

59854. K. N. Misra. Improvements in or relating to typewriters and typebodies.

59855. K. N. Misra. Improvements in or relating to movement in typebodies for elimination of most or all dead keys for use in typewriters or like machines for devanagari and similar scripts, etc.

59856. Magyar Adocsogyar. Heating element.

59857. Ciba Limited. Manufacture of keto-steroids.

59858. E. K. Cole Limited. Improvements in or relating to the mounting of scanning coil assemblies on cathode ray tubes. (17th March 1956).

59859. Imperial Chemical Industries Limited. Vulcanisable rubber compositions. (16th March 1956).

59860. Etablissements Neyrpic. Improvements in or relating to double-acting axial turbine installations.

59861. Etablissements Neyrpic. Improvements in or relating to tide-driven turbine installations.

59862. W. R. Grace & Co. Plate separator for storage batteries.

59863. United Kingdom Atomic Energy Authority. Improvements in or relating to heterogenous nuclear reactors. (15th March 1956).

59864. R. R. Balaguer. Primary battery and production thereof.

11th March 1957

59865. British Insulated Callender's Cables Limited. Improvements in or relating to apparatus for the vulcanisation of rubber covered wire and cable. (15th March 1956).

59866. Babcock & Wilcox Limited. Improvements in Power Plants.

59867. The British Tabulating Machine Company Limited. Improvements in or relating to value accumulators. (6th April 1956).

59868. Farbenfabriken Bayer Aktiengesellschaft. Water-insoluble azophthalocyanine dyestuffs and process for their production. (10th October 1956). [Addition to No. 56286.]

59869. Sequoia Process Corporation. Process for increasing the elongation of irradiated linear resinous plastic materials.

59870. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to adhesives.

59871. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Substituted morphinans and method for preparing thereof.

59872. Fiat Societa Per Azioni. Automatically controlled electric device for lighting compartments provided with a closing lid, more particularly engine hoods on motor vehicles, including a switch released by the lid movement.

59873. Kunstseiden Aktiengesellschaft and N. V. Onderzoekings-instituut "Research". Improved process and apparatus for the production of a yarn with capillary thread loops from endless synthetic filaments. (14th December 1956).

59874. Combustion Engineering, Inc. A vertically disposed furnace.

12th March 1957

59875. British Telecommunications Research Limited. Improvements in Electrical Control Circuits. (13th March 1956).

59876. American Chemical Paint Company. Improvements in or relating to the production of corrosion resistant coatings on aluminium or aluminium alloys. (11th July 1956).

59877. Hickson & Welch Limited. Improvements in or relating to optical whitening agents. (21st March 1956).

59878. Corn Products Refining Company. A wet starch manufacturing process.

59879. American Cyanamid Company. New 2-(N-substituted)-acylamino-1, 3, 4-thiadiazole-5-sulfonamides and intermediates thereof. (1st February 1957).

59880. Rud. Furrer Sohne AG., Improvements in or relating to suspension filing systems.

59881. Farbenfabriken Bayer Aktiengesellschaft. Process for diazotizing aromatic amines.

59882. A. Rosenker. Improvements in or relating to the production of vitamin supplements for animal feeds.

59883. Dexion Limited. Improvements relating to jigs for frame structures. (16th March 1956).

59884. H. J. Ransburg, H. G. Ransburg, H. P. Ransburg and E. M. Ransburg. Improvements in or relating to apparatus for electrostatically depositing liquid coating material.

59885. R. N. Nanda. Volume or tone indicator system which can be used in Radios.

13th March 1957

59886. Capt. Anthony Nicholas D'Silva. Improved sanitary towel or diaper.

59887. V. C. Surti, B. Sc. Modification and improvement in manufacturing shaded dyeing machine for textile piecegoods.

59888. M. N. Patel. A pocket decimal coin indicator.

59889. M. N. Patel. A handy decimal coin computer.

59890. E. I. Du Pont De Nemours and Company. Rotary perforating apparatus.

59891. Universal Metal Products Limited. Improvements relating to container closures.

59892. The Norwich Pharmacal Company. Improvements in or relating to the manufacture of derivatives of nitrofurans.

59893. The Norwich Pharmacal Company. Improvements in or relating to the manufacture of Aminoimidazolidone.

59894. The Norwich Pharmacal Company. Improvements in or relating to the manufacture of derivatives of nitrofurans.

59895. The British Drug Houses Limited. Preparation of organic compounds. (26th March 1956).

59896. The Wellcome Foundation Limited. Improvements in and relating to quaternary ammonium compounds and the preparation thereof. (29th March 1956).

59897. Simpson Timber Company. Process of forming fissured fiber acoustical tile and product thereof.

59898. S. G. Anderson. A machine for shrinking fabrics, particularly knitting.

59899. Dr. L. Domnick. An apparatus for the discharge of condensation water. (23rd April 1956).

Alteration of Dates

58355. Ante-dated to 16th June 1955, under Section 5 of the Act.

59276. Ante-dated to 3rd January 1956, under Section 5 of the Act.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India, Book Depot, 8, Hastings Street, Calcutta, in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charge which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

54716. Dr. L. Auer. Improvements in or relating to pigmented oil-in-water resin emulsions for use in the art of textile printing and to the production and use thereof. Accepted on 11th March 1957.

Comprising water, 4.5 per cent—31 per cent emulsified resinbinder, 0.18 per cent—2.16 per cent emulsifying agent, 0.075 per cent—4.34 per cent protective colloid and 7 per cent—22 per cent dispersed pigment.

54747. Daimler-Benz Aktiengesellschaft. Improvements relating to the regulation of combustion turbines. (15th March 1955). Accepted on 9th March 1957.

Temperature of turbine blades automatically limited by regulating device controlled by temperature-influenced device responsive to the temperature directly or indirectly.

54757. D. Karmalkar. Umbrella ribs provided with hinges. Accepted on 13th March 1957.

Consists of fitting to each of the spoiled spoke heads a key having a hollow body portion and a head portion provided with a hole.

54769. J. Dugler. Industrial installations utilising normally corrosive gaseous fluids. Accepted on 13th March 1957.

Wherein such apparatus is equipped with heating and insulating means to supply to much heat that all moisture therein is transformed into superheated steam.

55357. United States Steel Corporation. Apparatus for classifying sheets according to length. Accepted on 6th March 1957.

Comprising in combination a conveyor to carry sheets of specified length, a deflector to pass acceptable length of sheets, means adjacent to conveyor and responsive to passing of sheet edges for determining whether each sheet is of acceptable length, a circuit connecting the length-determining means, and timer for registering off-length sheets.

55373. W. Pflaum. Improvements in or relating to internal combustion engines. (25th May 1955). Accepted on 8th March 1957.

The combustion air in the precombustion space executes a rotatory movement the fuel is injected into the rotating air and the temperature of the precombustion space wall is controlled depending upon the operating condition.

55386. H. W. Burrington. Structural assemblies. Accepted on 11th March 1957.

Comprising an elongated structural element having a channel cross-section of which the side walls are inwardly stepped intermediate their width.

55409. S. P. Joshi. Improvements in or relating to supports for vacuum flasks in their outer containers. Accepted on 12th March 1957.
- Consisting of a bottom plate of plastic or like flexible material, on which is provided upright members of plastic or like flexible material with one end integral with bottom plate and the other end free to support vacuum flask at points around its bottom part.*
55416. The Goodyear Tire & Rubber Company. Improvements in films or coatings. Accepted on 8th March 1957.
- Which includes an acrylate rubber plasticized with an ether ester of phosphoric acid.*
55472. Telephone Manufacturing Company Limited. Improvements in signalling arrangements in multiplex carrier wave telephone systems. (27th September 1954). Accepted on 12th March 1957.
- Of the type in which the signalling frequency for each channel occupies a position in the frequency spectrum lying within the range allocated to the channel but outside the range occupied by the speech band within that channel.*
55655. Dorr-Oliver Incorporated. Continuous process for the heat treatment of fine solid materials in a fluidized solids reactor, and apparatus for performing same. Accepted on 8th March 1957.
- Wherein the heating zone is heated in excess of the heat requirements of the final treatment zone and in the latter zone are mingled heated solids from the former zone with those received from the preheating zone.*
55763. A. Coyne and J. Bellier. Bedding process and device for cables stretched in a structure placing it in prestressed condition. Accepted on 9th March 1957.
- Process consists after having exerted the necessary stretching on the cable to fully inject in at least a portion of the channel.*
55765. Air Reduction Company, Incorporated. Gas shielded arc cutting. Accepted on 13th March 1957.
- Comprising feeding an electrode to high current density electric arc between the electrode and the metal to be cut, supplying to arc a substance comprising a metal selected from group consisting of the alkali metal.*
55766. Air Reduction Company, Incorporated. Stud welding. Accepted on 13th March 1957.
- Forming a welding arc between stud and workpiece, shielding the arc with an atmosphere of inert monatomic gas, adding to arc a metal selected from the group consisting of alkali metals.*
55767. Air Reduction Company, Incorporated. Welding electrode. Accepted on 13th March 1957.
- Comprises a plurality of individual wire strands, one of which includes a substance comprising a metal selected from the group consisting of alkali metals.*
55770. Westinghouse Brake & Signal Company Limited. Improvements relating to automatic couplers for railway and like vehicles. (16th November 1954). Accepted on 12th March 1957.
- With a detachable train pipe connecting unit comprising a hollow body defining a chamber open at one end and closed at other and a valve device and a resilient sealing member.*
55862. Colgate-Palmolive Company. Dentifrice preparations. Accepted on 8th March 1957.
- Comprises fluoride compound releasing fluoride ions, calcium polyphosphate polishing agent and calcium ion suppressing agent.*
56058. Parke, Davis & Company. Process for the production of benz [c] acridine compounds. Accepted on 8th March 1957.
- A monoalkylaminoalkylamine is condensed with a 7-substituted benz[c]-acridine or a naphthylaminobenzoyl halide and in the latter case the resulting amide is cyclized.*
56222. Ciba Limited. Manufacture of new aza-compounds. Accepted on 12th March 1957.
- A 1-aza-2, 4, 9-trimethyl-thioxanthone containing a residue known to be convertible into a (tertiary amino)-alkyl amino group in converted by known method into the said group.*
56536. Bayliss, Wiley & Co. Limited and F. Randells. Improvements in free wheel clutch devices. (12th July 1955). Accepted on 12th March 1957.
- Comprises inner and outer ring parts with clutch mechanism between and ring shaped cover plates formed from sheet metal by stamping.*
57235. Dr. E. Engel. Process for removing constituents of cokeoven gas. Accepted on 5th March 1957.
- By compressing the gas, cooling it to a temperature 25°C to separate a part of hydrocarbons and naphthalene and subsequently cooling it to a temperature -20°C to -50°C to separate residual benzol and naphthalene.*
57406. Chinoin Gyogyszer Es Vegyeszeti Termek Gyara R.T. Process for the preparation of 1-(p-nitrophenyl)-2-acylamidopropane-1, 3-diols. Accepted on 8th March 1957.
- A serine derivative is reduced with a complex metal hydride reducing agent, the metal complex is acylated and the N-acyl metal complex is decomposed.*
57424. A. H. Khan, K. U. Khan, G. U. Khan and M. U. Khan. Improvements in or relating to 'chilams' or tobacco bowls for hubble-bubbles and like smoking appliances. Accepted on 7th March 1957.
- Comprises an electric heating coil inserted in grooves of porcelain plate placed in upper half portion of chilam.*
57496. Root-Lowell Manufacturing Co. Atomizing spraying device. Accepted on 13th March 1957.
- Comprises a sprayer assembly and the siphon tube is sealed off when not in use.*
57612. Metropolitan-Vickers Electrical Company Limited. Improvements relating to dynamo-electric machines. (14th June 1955). Accepted on 8th March 1957.
- Pump means communicating with the conductor cooling ducts for causing cooling fluid to flow therein.*
57627. G. K. White. Improvements relating to protective gloves, mitts, boots and shoes for workpeople. Accepted on 12th March 1957.
- Dipping base fabric in a plastic material, allowing partial impregnation of the inner layer.*
57630. Nihon Spindle Manufacturing Company Limited. A frame cleaning device by utilizing exhaust air from the suction cleaner in spinning and like operations. Accepted on 9th March 1957.
- Comprises a carriage with blowing nozzles to blow exhaust air sucked from lengthwise duct and reciprocating lengthwise to clean.*
58164. Farbenfabriken Bayer Aktiengesellschaft. Process of preparing ice-colours in textile printing. Accepted on 12th March 1957.
- Applying to a textile material a dye composition containing a diazo-amino compound obtained from weakly negatively substituted amines of the benzene series and 2-carboxy-5-nitro-phenylamine acetic acid and an ice colour and developing the dyestuff by steaming with neutral steam.*
58172. E. Haag. Picker for jute looms. (18th April 1956). Accepted on 13th March 1957.
- Picker made of a synthetic plastic material having the shuttle striking portion narrower than the spindle guide portion and recesses in the middle area of its side faces.*

58279. Ciba Limited. Process for the production of stable solutions of hardenable condensation products of melamine, thiourea and formaldehyde. Accepted on 7th March 1957.

A solution of a product having solids content of 40—65 per cent is heated at a temperature not exceeding 100°C until a test portion of the resin solution when diluted with water to a solids content of 30—40 per cent produced a slight turbidity, and the resin solution is adjusted to a pH of 8.5—10.

58355. Taymouth Industries Limited. Improvements in and relating to mechanism for feeding fasteners such as screws, bolts or nails and the like. [Divisional date 16th June 1955]. Accepted on 13th March 1957.

The fastener feeding means includes a shuttle comprising a reciprocable plate dividing the passage into two parts.

58792. Creed & Company Limited. Improvements in or relating to power supply equipment. (22nd November 1955). Accepted on 7th March 1957.

Stable frequency and amplifier, and variable gain means in said amplifier responsive both to motor current and amplifier output voltage.

58842. D. Napier & Son Limited. Boundary layer control for aircraft. (7th December 1955). Accepted on 2nd March 1957.

Boundary layer air sucked away by an auxiliary compressor of a gas turbine propulsion unit.

58880. Davidson & Company Limited. Improvements in or relating to means for controlling the supply of liquid fuel to burners. (18th November 1955). Accepted on 7th March 1957.

Comprising a spring closed valve in the fuel supply line, a diaphragm adapted for a portion of atomising fluid, and a trip device which comprising two elements which controls the atomising fluid.

59133. Menley & James Limited. Improvements in or relating to the manufacture of 5-nitro-furan derivatives. (3rd January 1956). Accepted on 8th March 1957.

Heating 5-nitro-2-furfuraldehyde and semicarbazide.

59276. Ciba Limited. New pharmaceutical preparations containing new aza-compounds. [Divisional date 3rd January 1956]. Accepted on 12th March 1957.

The preparation comprises a 1-aza-2,4,9-trimethyl thioxanthone having in the 6-position a (tertiary amino)-alkyl amino group, the alkylene group containing at most 3 carbon atoms, and a pharmaceutical carrier.

Patents Sealed

53347. 53488. 53500. 53504. 53516. 53527. 53696. 53798. 53906. 53964. 54040. 54091. 54202. 54226. 54232. 54236. 54239. 54262. 54271. 54363. 54395. 54478. 54524. 54545. 54690. 55292. 55557. 55773. 55916. 55917. 55996. 55997. 56076. 56164. 56340. 56558. 56601. 56786. 57197.

Amendment Proceedings

(1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that The General Electric Company Limited, Electrical Engineers and Manufacturers, whose registered Office is at Magnet House, Kingsway, London, W.C. 2, England, a Company incorporated under the Laws of England seek leave to amend the description and claims in the specification in respect of Patent application No. 54920. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office on payment of the usual charges.

(2)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Godrej & Boyce Manufacturing Company Limited, now re-named Godrej & Boyce Manufacturing Company Private Limited, a company

organised under the Indian Companies Act, of Lalbaug, Parel, Bombay, India, seek leave to amend the name of the Applicant in the application, specification and drawings in respect of Patent application No. 55435. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

Registration of Designs

The following designs have been registered. They are not open to inspection for a period of two years from the date of registration except as provided for in Section 50 of the Indian Patents and Designs Act.

The dates shown in each entry is the date of registration of the design including in the entry.

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

Class 1. No. 88991. Birdi Brothers, 447, Industrial Area-B, Ludhiana, "Motor vehicle jack", December 3, 1956.

Class 1. No. 89405. Lakhi Trading Company, Shop No. 8-9, Jai Hind Estate, Bhuleswar Bombay 2, Bombay State, "A lid for a container or a daba", January 7, 1957.

Class 4. No. 89313. Ashoke Glass Works of 9, Ezra Street, Calcutta, State of West Bengal, India, "Jar", December 29, 1956.

Class 5. No. 89572. Kobli Chinnakan Nadar Sankaralinga Nadar Kasi Nadar, Kobli Chinnakan Nadar Sankaralinga Nadar Dhanushkodi Nadar Bagavat Singh, Trading as Baby Aerated Water Works, 15, Singara Garden, 7th Lane, Washermanpet, Madras 21, "Label", January 14, 1957.

Class 13. Nos. 89614 to 89618, 89620 to 89628 and 89630 to 89637. The Central India Spg. & Mfg. Co. Ltd., Bombay House, Bruce Street, Fort, Bombay, "Textile goods", January 19, 1957.

Class 13. Nos. 89656 and 89657. The Victoria Mills Limited, Delisle Road, Parel, Bombay 13, "Cotton Piece-goods", January 22, 1957.

Class 13. No. 89671. Crown Spg. & Mfg. Co. Ltd., Gokhale Road, Parel, Bombay 28, "Textile Goods", January 24, 1957.

Class 13. Nos. 89801 to 89807. The Century Spg. & Mfg. Co. Ltd., Industry House, 159, Churchgate Reclamation, Bombay 1, "Textile Goods", February 6, 1957.
